drive system LINAK being easy to maintain and durable

your advantages:

• quality and durability

The home care bed "Westfalia III" is extremely solid constructed, so that it fulfills the requirements in daily care perfectly.

The high quality ensures you a home care bed which is durable, robust and easy to maintain and which decisively minimizes the follow-up costs.

Residents find optimal care conditions. The nursing persons are very much relieved in their daily work.

• economic efficiency

The price-performance ratio is exceptionally reasonable. Nevertheless there was no economizing concerning the construction and the material. Especially the use of high-quality materials ensures Burmeier's quality philosophy.
